

Financing a heating or lighting project.

Sue Booth – Buildings for Mission Officer

Ice Hotel, Sweden

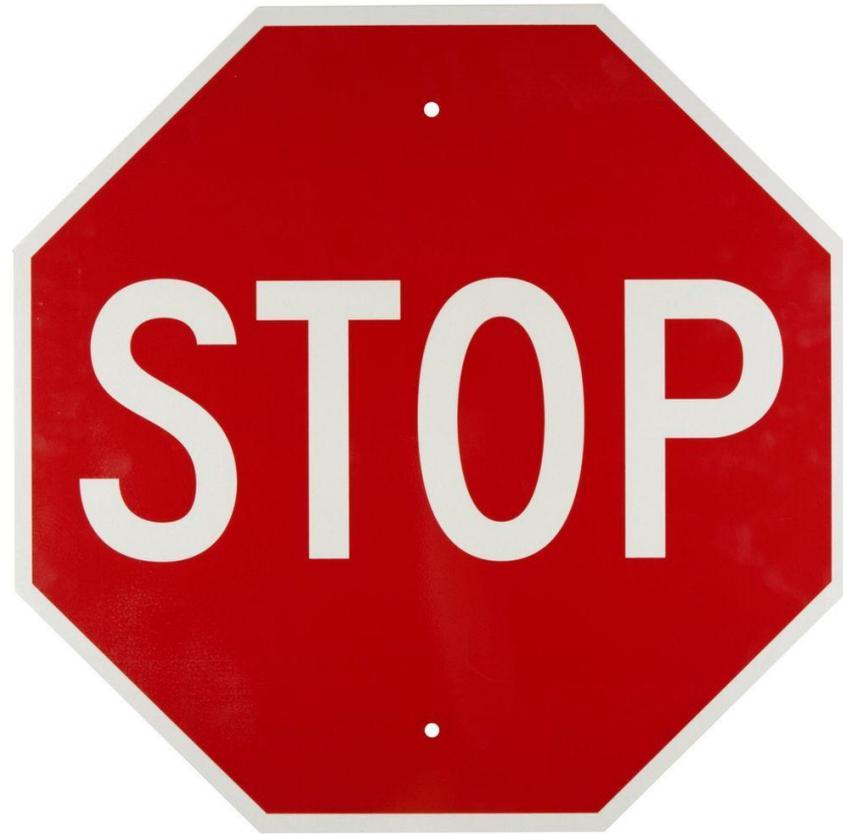

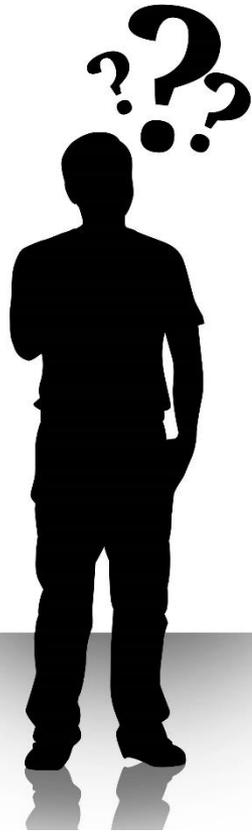

WHAT DO WE DO?

- STOP!
- Think
- *PRAY...*

- What do we want?
- What do we need?
- How can we do it?

- What does GOD want in this place?
- What does HE need in this place?
- How can WE do this for HIM?

TAKING STOCK....

- We **WANT** to reduce our carbon footprint.
 - The costs of installing **'green'** heating/lighting are **WAAAY** more than the costs of replacing our gas/oil boiler or the existing lightbulbs
 - **WHAT. DO. WE. DO?**

Fundraising for a Capital Project

Do:

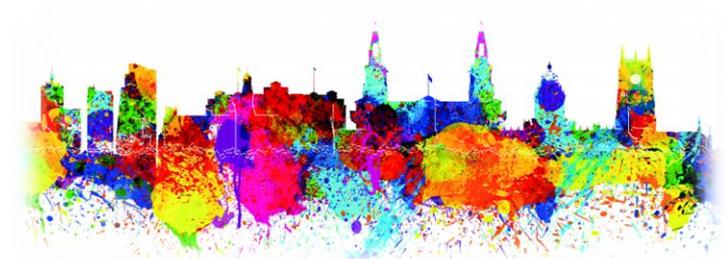

- **Look ahead. Be realistic.**
- Include as many people as possible to develop a shared vision;
- **Your research – What? How? How much?**
- **Set goals;**
- Explain that fundraising is in addition to any regular giving.

Don't

- **Assume that everyone agrees with the vision;**
- Have any expectations of anyone - not even the PCC;
- **Over-reach.**

If everyone **OWNS** the
VISION, the chances of
success are **MAGNIFIED!**

STRATEGY!

Fundraising Group:

- Grants
- Events

GOVERNANCE!

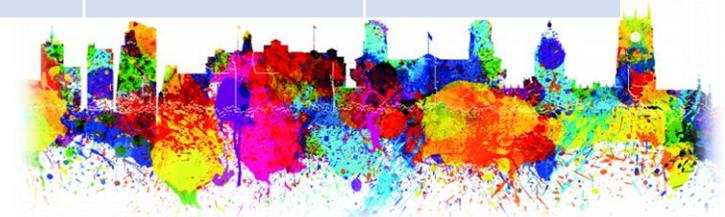

Garfield Weston
FOUNDATION

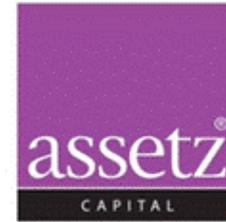

Funder	Notes	<u>Deadline</u>	Award	Max Amount	Matchfunding %	Permissions?
NCT	Cornerstones	<u>Nov 2018</u>	Mar 2019	£50k (ish)	50%	Y
